Rise up!  
We are surrounded  
Got our backs against the wall  
This ground was hollowed  
Now it's just cushion for the fall  
Rise up like a phoenix from the ashes  
We need to rise up like a phoenix from the ashes  
Come on  
Hey! Stand up and fight with me tonight  
Can't do this on my own  
Hey! Been putting on for far too long  
Can't do this on my own  
I'll be your beacon  
Drug out in the streets and left to burn  
Let's not be shy now  
Go give them just what they deserve

Rise up like a phoenix from the ashes  
We need to rise up like a phoenix from the ashes  
Come on  
Hey! Stand up and fight with me tonight  
Can't do this on my own  
Hey! Been putting on for far too long  
Can't do this on my own  
I'm not scared to die, but I can't do this on my own  
Spare us your excuses  
Show us no mercy  
Spare us your excuses  
Show us no mercy  
No mercy  
Hey! Stand up and fight with me tonight  
Can't do this on my own  
Hey! Been putting on for far too long  
Can't do this on my own
