YOU! who suffocated this land  
brought poorness to every man  
and filled the young blood with anger

OUR! freedom you took away  
you turned our blue skies to gray  
your fucking life is in danger

NOW! your kingdom's about to fall  
you'll pay and we'll make you crawl  
our power and strengh keeps on growing

YOUR! time already has come  
streets has became our home  
you won't guess where this is going!!!

So one more time you led your tanks towards the city,  
but we will stay there and we'll stand still like a stone.  
And one more time you opened fire against the young  
blood  
but we won't die because...!

CHORUS:

We are the youth,  
we're standing tall.  
we're fighting all against the walls  
We are the youth  
we're not gonna fall  
we want it now we want it all

BLOOD'VE! been spilled, it's your fault  
corruption, death, nothing more  
is what your communism brought.

LOUD! the bullets and bombs, they are  
This ten years will leave a scar,  
a scar, a wound in our hearts.

YOU! and your fucking irony  
are 'bout to get out of here.

If we don't fight we don't live.

FAITH! we won't pray for right now;  
we will scream clear and loud.  
you'll fall and we'll show you how!!!

CHORUS:

We are the youth,  
we're standing tall.  
we're fighting all against the walls  
We are the youth  
we're not gonna fall  
we want it now we want it all

Forget the promised land, there was never one  
It was just a dream, destroyed by human beign.

CHORUS:

We are the youth,  
we're standing tall.  
we're fighting all against the walls  
We are the youth  
we're not gonna fall  
we want it now we want it all

(WE ARE THE ONES, WE ARE NOT LOST  
WE ARE THE ONES THEY FEAR THE MOST  
WE ARE THE YOUTH, WE'RE STANDING TALL  
WE ARE THE YOUTH WE'LL BURN THEM ALL)
