We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word  
We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word  
We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word

We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word  
We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word

I want you and you want me  
I don't need to hear you say, I don't need to hear you  
say  
I want you and you want me  
I don't need to hear you say, I don't need to hear you  
say

I feel it, I feel it, I feel it

We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word  
We'll be together, I feel it in my heart  
I don't need to hear you say, you don't have to say a  
word

I don't have to hear you say, you don't have to say a  
word

I don't have to hear you say, you don't have to say a  
word
