8 o'clock the drive in movie starts
You said that we'd make it
Drove halfway there and changed our minds
We went to the park instead
Come and rescue me from this TV set
I'll be waiting for you

Did I make it up
Did I never call the bluff
Were you really ever in love with me?
Maybe I'm just crazy

You looked so good, your feet touching mine
underneath the sheets
Your hair was all over my face
I remember it like it was yesterday
I've got a fever just thinking about you
Like I always do

Did I make it up
Did I never call the bluff
Were you really ever in love with me?
Maybe I'm just crazy

Maybe you're crazy too
Crazy just like me
Clap your hands
Clap your hands

Did I make it up
Did I never call the bluff
Were you really ever in love with me?
Maybe I'm just crazy

Maybe you're crazy too
Crazy just like me
Maybe I'm just crazy
