

Vaccines, The "All in White"

Visit "[All in White](#)" on MotoLyrics.com

Break me on the 37th hour,
Trot me, doubt me, show me all of your power.
I will watch you rise on my back from afar,
Friend, I thought, don't know if you're up in the stars.

Oh but I will one day shine with you,
I'll shine on a papal view.
Ahhh
Ahhh

Well, show me long quotations,
Help you and your strides.
Fabricate salvation,
Lord, I know your type; I've known you all my life.
I was always wrong, you all in white.

...little trouble
Oh my god I begged for a big bubble
I will watch you rise on my back from the ground.
Friend, I don't know if you'll like what you've found.
Because I will one day shine with you,
I'll shine on a papal view.
Ahhh
Ahhh

Oh show me long quotations,
Help you and your strides.
Fabricate salvation,
Lord, I know your type; I've known you all my life.
I was always wrong, you were all in white.

Oh show me long quotations,
Help you and your strides.
Fabricate salvation,
Lord, I know your type; I've known you all my life.
I was always wrong, you were all in white.
