Back in my bags
walking out the door
I'm leaving no keys on the counter
I can't take no more
'cause you seem unsure
as to hold you wanna love in the situation
this is the last time, last time
I've heard all the though lies
took knock you on the paper
I know that early ..
this is only one thing left for me to do oh

Say goodbye
I'm leavin right now,
this is your, this is your life
this is your, this is your life
breakin my, breakin my
my heart heart, my heart heart
this is your, this is your life
this is your, this is your life time
breakin my, breakin my heart
my heart heart, my heart heart

And I never thought that you will ever be the one
to make me wanna love no more
so I'm gonna leave 'cause boy you and me are meant
to be

Say goodbye
I'm leavin right now,
this is your, this is your life
this is your, this is your life
breakin my, breakin my heart
