(feat. Ligfford)

Mmm-hmm
I mean it (I mean it)
Don't say it, babe (don't say it, babe)
Hear me now-now
Said ah, please don't turn me on
No no
Listen (listen)

Baby, won't you keep your distance
You're gettin' too close to me
I've been feelin' my resistance
Meltin' away
But she said she wouldn't mind
If I spend a little time
Said you were a friend of mine
She could trust me out of sight

Now two bottles later on
And I think I stayed too long
I forget where I belong
Sayin' please don't turn me on

It's gettin' late I know I should be gone
Don't push me 'cuz I'm not that strong (no, no, no, no)
You can never make it right from wrong (no, no, no, no)
Please don't touch me there
Stop playing with my mind it's not fair
When you know I've got another who cares
And she's waiting for me somewhere out there
Yeah (Uh ,uh)

Don't say my love is too familiar
'Cuz she's everythin' to me
Don't say what she don't know won't kill her (ooh)
I'm playin' away
Put your hands where I can see
Baby, you know what I mean
'Cuz you're looking good to me
And you know I feel the heat
As you button up your dress

And I wake up in your bed
With a head full of regrets
Sayin' please don't turn me on
It's gettin' late I know I should be gone
Don't push me 'cuz I'm not that strong (no, no, no, no)
You can never make it right from wrong (no, no, no, no)
Please don't touch me there
Stop playin' with my mind it's not fair
When you know I've got another who cares
And she's waitin' for me somewhere out there, yeah

Don't want to lose the love I have
'Cuz once it's gone can't take it back
(You know that I won't too)
Don't matter what I hear you say
I see the look that's in your eyes (no, no)
Please don't turn me on

It's gettin' late I know I should be gone (I should be gone)
Don't push me 'cuz I'm not (I'm not) that strong
(I'm not that strong, baby)
You can never make it right from wrong (and oh)
Please don't touch me there (me there)
Stop playing with my mind it's not fair (it's not fair oh nono)
When you know I've got another who cares
(She cares about me)
And she's waiting for me (and she loves me)
Somewhere out there (and she needs me)

Please don't turn me on
It's gettin' late I know I should be gone
(You know I should be gone)
Don't push me 'cuz I'm not that strong
(I'm not that strong)
You can never make it right from wrong (from wrong)
Please don't touch me there (touch me there)
Stop playing with my mind it's not fair (Said it's not fair)
When you know I've got another who cares
