Saw you earlier in this morning
Thought my eyes deceived me
Got home that night
Just to cry myself to sleep

Seems like all these bad things
they are coming true
And I can't help, but wondering
how I can possibly live without you
To see you there
I wanna scream for you, scream for you yeah
Not enough inside do you go outside like I do
Scream for me, scream for me yeah
When you close your eyes do you feel inside like I do

I thought I had bad dreams
but they've come to the floor
If I'm thinkin clear, well I've never thought clearly
before
So if you want to talk with me
Should I say could I discuss with you?
See it's been very hard for me
Tell me how bad it's been for you
To see you there
I wanna scream for you, scream for you yeah
Not enough inside do you go outside like I do, I do
Scream for me scream for me yeah
When you close your eyes do you feel inside like I do?
I thought this little wild time might help bring me
around
You found me out how'd you find me out
After all I've been doin you found out and yeah

I wanna scream for you, scream for you yeah
Not enough inside do you go outside like I do
Scream for me why cant you baby scream for me yeah
When you close your eyes do you feel inside like I do?
I just wanna scream for you...
