Raise your glasses to the best
Drink 'em down like the rest
And baby if you had any doubt, rest assured I found
you out
I found you out

Live young or sleep forever
Do us all a favor
Do us all a favor
Don't believe what you see in the mirror
I found you out

And I'm just trying to understand what I know nothing
about

So let's take 5 and sit this one out
It's time you got your stories and alibis straight
'Cause you're locking lips and loving the taste
I can tell, it's written all over your face

This is the sound of hearts colliding, it's a bloody mess
but I can see you're over it
You're over it
This is the sound of hearts colliding, it's a bloody mess
but I can see you're over it
(You're over it)
You're over it

And this is the sound of hearts colliding, it's a bloody
mess but I can see you're over it

So let's take 5 and sit this one out
It's time you got your stories and alibis straight
'Cause you're locking lips and loving the taste
I can tell, it's written all over your face

I found you out
I found you out
I found you out
I found you out
I found you out

(This is the sound of hearts colliding)
I found you out
(This is the sound of hearts colliding)
I found you out

So let's take 5 and sit this one out
It's time you got your stories and alibis straight
'Cause you're locking lips and loving the taste
I can tell, it's written all over your face
