(Dammit, people, say "HEY!")

Hey! (x4)

Try to call you on the phone

Once again you're not at home

You say you love me for all time

You and I both know that's a lie

I hope you fucking die!

Use me, abuse me, tell me

What your idea of a relationship is supposed to be.

You hide it, deny it

I can tell your love for me has all been a bunch of shit.

Try to talk to you

Nothing ever gets through

Never hear a word I say

Ya get up and walk away

Do you really care?

The fact that I don't think it's fair

That you can get up and walk right out the door?

You're such a stupid whore!

Hey! I finally dump your ass

Put you in my past

No more cheating on me

I can finally let things be.

Then one summer day

You walked right in my way

Tears rolling from your eyes

Mistreated by a guy.

You came up to me

Looking for some sympathy

What a strange thing to do

What I am supposed to do?

Should I be real glad?

Maybe a little sad?

You've never been treated like this

Never once been dissed.

Thought about what to do

Should I be comforting you
Tears rolling from your eyes
Mistreated by a guy
Then I thought way back
When you put me down
Then I laughed at you and said
"Bitch, what comes around goes around."

Hey! (x4)
I don't like you
I just hate you
I hope you fucking rot!
