"Green Light"

I've got a little, little house love
No uptown or Queens
It's on the other side
Grove street, past the city vibe

Gimme the red light, no
Gimme the green light, yes
I wanna miss my flight
Don't wanna be your boy on the side

Let's get on a jersey high
Don't need big city vibes
Green light, tonight, shine down on our side
Let's get on a jersey high
Don't need big city vibes
Green light, tonight, shine down on our side

Do you want a little something?
Or the best of everything?
We need to settle it now
'Cause I think I left my heart in this town
Can be the green light (Yeah)

Let's get on a jersey high
Don't need big city vibes
Green light, tonight, shine down on our side
Let's get on a jersey high
Don't need big city vibes
Green light, tonight, shine down on our side 2x

I want to miss my flight
New Jersey high
Feels so good

(New Jersey high, New Jersey high, New Jersey high)
