I Checked it

Unwrap my head for one thing
Can't Remember what I just did
I wish for some kind of silence
Don't feel like I'm raising this day
To them so much to say

Hey man I ain't got no time for that

I think they know
'Cause everybody knows
I think they know
'Cause everybody knows

So give me that oeh
Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as they give me that oeh

Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as they give me that oeh

I know it seems amazing
You contact me I agree
I understand that you're done with me
'Cause every little promise I make
Flushed down, faded away
It makes it harder to show my face

I think they know
'cause everybody knows

So give me that oeh
Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as you give me that oeh

Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as they give me that oeh

Didapdidapdapdidapdidap
7x

Just take it slow
'Cause I am on the road
Gotta take it slow
'Cause I am on the road

OEH!

*clap*clap*clap
Now Listen

So so
So give me that oeh
Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as they give me that oeh
Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as they give me that oeh
Whenever on the radio
Whenever on the tv-show
Well I don't really care
As long as they give me that oeh
