Undress these beautiful lies
Blind me with animal eyes
Carve your heart into mine
Carve your heart into mine

Brush me with venomous lips
Tear me to passionate strips
Stir up the beast inside
Stir up the beast inside

(I am)
Take me for all I'm worth
Touch me until it hurts
Until it hurts
Until it hurts
Until it hurts
Until it

Until my body burns
Love me until it hurts
Until it hurts
Until it hurts
Until it hurts
Until it

Rush of your chemical light
Your fingers cut like a knife
Remind me I'm alive
Remind me I'm alive

Taste of your poisonous tongue
Cut of your razor sharp touch
Ashes and dust to dust
Ashes and dust to dust

(I am)
Take me for all I'm worth
Touch me until it hurts
Until it hurts
Until it hurts
Until it hurts

Until it

Until my body burns
Love me until it hurts
Until it hurts
Until it hurts
Until it hurts

Come closer, come closer, come closer, come closer
inside

Come closer, come closer, come closer, come closer
inside

(I am)
Take me for all I'm worth
Touch me until it hurts
Until it hurts
Until it hurts
Until it hurts
Until it

Until my body burns
Love me until it hurts
Until it hurts
Until it hurts
Until it hurts
Until it

Take me for all I'm worth
Touch me until it hurts
Until it hurts
Until it hurts
Until it hurts
Until it

Until my body burns
Love me until it hurts
Until it hurts
Until it hurts
Until it hurts
Until it

Come closer, come closer, come closer, come closer
inside

Come closer, come closer, come closer, come closer
inside
