Kelly was a young girl, looking in the mirror, doing what  
young kids do  
Watching out the window, thinking of all the things she  
should do  
She's running all the time, she's running blind  
It's raining all the time, the clock hits nine, then she  
met me

Oh Kelly, do what you need to come home  
Oh Kelly, you know I see you running  
(x2)

She's sitting back now, painting in her taylor's, thinking  
of me and you  
Listening to her player, missing out all the Prince and  
things she knew  
She's running out of time, she's running blind  
It's raining all the time, the clock hit nine, then she met  
me

Oh Kelly, do what you need to come home  
Oh Kelly, you know I see you running  
(x3)

Oh Kelly, do what you need to come home  
Oh Kelly

Oh Kelly, do what you need to come home  
Oh Kelly, you know I see you running  
(x4)
