

Vanished, The "Anesthesia Winter"

Visit "[Anesthesia Winter](#)" on MotoLyrics.com

do you need some anesthesia just to make it this time?
or would it only please ya if i stepped out of line?

oh i got a habit of falling back to the bottom again
yeah i got a habit of falling back to the bottom again

say to me what you hate to say
before you push me away, before you push me away
say to me what you hate to say
before you push me away, before you push me

so what are you so afraid of? is it to feel alive?
have you lost your lucky clover? did it work this time?

oh i got a habit of falling back to the bottom again
yeah i got a habit of falling back to the bottom again

say to me what you hate to say
before you push me away, before you push me away
say to me what you hate to say
before you push me away, before you push me(oh oh
oh)

well i can learn to love you just like you learned to hate
me
and i can say all the things that you want me to say.
you're like a razor blade with all the cuts that you make
so dont push me away, yeah dont push me away

so say to me what you hate to say
before you push me away, before you push me away
say to me what you hate to say
before you push me away, before you push me(oh)
(repeat 1x)
