"Love Like A Melody"

Visit "[Love Like A Melody](#)" on MotoLyrics.com

My heart will beat consistently
the sound of love like a melody
the purest love alive in me is bringing out the best in
me
dont degrade your lips to speak
a source of pain for the world to receive
feel the light shining in,
fall in love and love again
fall in love again.

Love is breaking through,
it's taking us to
a place where all find hope and hope again.

Grace is what we need,
could we believe that this could bring us back,
bring us back again.
In life we see the ones who hurt
the ones afraid to be alone,
so believe me when you hear me
you are not the only one.
we are needy oh so needy
feeling what we were not meant to know,
what if really living meant to give your life for
something more.
There is so much more.
Only you can bring us back. only you can bring us back
again.
