"Until next time"

Visit "[Until next time](#)" on MotoLyrics.com

When my gift arrives i ll be there
I'nd when our time runs out i ll meet you again
Cause everything has changed tonight
We ve just found something we ve locked it inside

Without some love, where could we run? who would we be?
But now its time, we kiss you goodbye...
There is no time
Until next time

Locked inside your mind i hope you ll find a way
You wont let it happen to you you need some change
But i keep falling from the trees
Until next time that we ll meet

Without some love, where could we run? who would we be?
But now its time, we kiss you goodbye...
There is no time
Until next time

Where could we run? who would we be?
But now its time, we kiss you goodbye...
There is no time

Without some love, where could we run? who would we be?
But now its time, we kiss you goodbye...
There is no time
Until next time

Where could we run? who would we be?
But now its time, we kiss you goodbye...
There is no time
Until next time

There is no time...until next time...there is no time
