This empty vault holds my heart.
I envoke when i once had yours.
Now, looking back i know it all.
Your unfaithful heart has brought my fall.
I will go because you, you won't show.
I know your games, why won't you say...
Lies kept, tears wept, you left.
Trust me.
My first, your last, our love.
Trust me.
Your eyes, your thighs, cold heart.
Trust me.
My trust, love lost, your fault.
Trust me.
You were the dagger to end my life.
Cut me open, bleed me dry.
I will always hold you dear.
In my mind you scream so clear.
You said you needed space to breathe.
The truth was you really hated me.
Why can't you just tell the truth?
I will go, because you made me go.
I know you'd change if you knew my pain.
Lies kept, tears wept, you left.
Trust me.
My first, your last, our love.
Trust me.
Your eyes, your thighs, cold heart.
Trust me.
My trust, love lost, your fault.
Trust me.
Keep your tounge pressed against your teeth.
The airs so stale i can hardly breathe.
And when my lungs start to burst, your misplaced love
will hurt the worst.
I know your games.
Why won't you say...i know you'd change if you knew.
If you knew my...if you knew.
If you knew my...if you knew my pain.
