This message is your final lesson  
Time to test your comprehension  
Here before you lies the puzzle  
What's the next piece that should follow?

I might have forgot to mention  
You must watch for misdirection  
This is what you're wanting to be  
Why don't you just try and trust me?

You don't want what  
I have offered up  
But I have lived through  
The life that you want to

You better believe it  
To see it  
Do you understand?  
You better believe it  
To see it  
Do you understand?

Now if you don't want to be living without  
And you don't want to be living in doubt  
In a world that could just fall apart  
And your dream could come to end  
You better believe it

Here's the answer to your question  
This will be my last suggestion  
This is what you're wanting to be  
Why don't you just try and trust me?

You don't want what  
I have offered up  
But I have lived through  
The life that you want to

You better believe it  
To see it  
Do you understand?

You better believe it  
To see it  
Do you understand?

Now if you don't want to be living without  
And you don't want to be living in doubt  
In a world that could just fall apart  
And your dream could come to end  
You better believe it

You better believe it  
You better believe it

In a world that could just fall apart  
And your dream could come to end

You better believe it  
To see it  
Do you understand?  
You better believe it  
To see it  
Do you understand?

Now if you don't want to be living without  
And you don't want to be living in doubt  
In a world that could just fall apart  
And your dream could come to end  
You better believe it  
You better believe it
