"A Birthday Present"

Everybody thinks it's something real
Right until the devil drinks it
O li O
Everything's fate and spinning wheels
Everybody wants their princes
O li O

There's no sense in waiting for a swift completion to
come
That invitation is all I'm waiting on

The tedious thoughts of the head of state
Are seldom ever worth revealing
O li O
Indelible stains on the human race
You hideous fakes and murderers
O li O

There's no sense in waiting for a swift completion that
never comes
That invitation is all I'm waiting on

Everybody thinks the end is here
How am I to tell the difference?
O li O
Wish everybody a happy new year
There are varying results predicted
O li O

It's no sense in waiting for a swift completion to come
That invitation is all I'm waiting on
