[Verse 1]

I only wanted you, sent in by me now
turn your back and bleed, senses really weak
Built inside me hate, buried hot in pain, listen clearly
now
Can you hear me?!

[Chorus](x2)

Don't bring me down, when the walls(x2) keep coming
down

[Verse 2]

I live in silence, you feel the violence burn, by the
mirror track
but you feel high, will deny high, will defy you, get in
closer now
Can you hear me?!

[Chorus](x2)

Don't bring me down, when the walls(x2) keep coming
down

[Love]

All you wanted was a little love(x4)

[Chorus](x2)

Don't bring me down, when the walls(x2) keep coming
down
