Get get get
Get serious

Keep going in and out of changes
And the pressures of life gets you down
It's time to make a change, it's time to rearrange
And turn your life all around

You don't worry, you don't cry
'cause somebody loves and keeps struglin' back
Open your mind if you wanna be free
Believe in your heart you have a destiny

Get serious
Are you serious? uh
About the life you're living
Are you serious?
About the love you're giving
Are you serious?
I know you, ah
About the life you're living
Are you serious?
Hey ah ah ah ahhhh ahhh
You need you need to get serious, uh
Yeah i like this

Sometimes when i look gets chilly
And the mountains get hard to climb
Look on the healing coming to help
Cause you've gotta to turn my mind

Open you mind
If you wanna be free
Believe in your heart you have a destiny
You don't worry, you don't cry
Cause somebody loving ya
And it's standing back

Are you serious?
About the life you're living
Are you serious?

About the life you're living

Huh oh

If you're going in and out of changes
And the pressures of life keeps getting you down
It's time to make a change time to rearrange
And turn your life all around

You don't worry, you don't cry
'cause somebody loving ya
And keeps standing back
Open you mind
If you wanna be free
Believe in your heart you have a destiny

Get serious
Are you serious?
Are you serious?
Heyyy
Serious
Yeahh
I said are you serious?
About your life
Are you serious?

About you're life
Are you serious?

Serious... ow

Time to make a change time to rearrange
Time to make a change time to rearrange
Time to make a change time to rearrange
Time to make a change time to rearrange
Let's get serious
Hey ahhh

About the life you're living
You need you need to get serious
Hey ahhh
About the love you're giving
You need you need to get serious
