Spin that wheel, just let go  
Where she falls, nobody knows  
Save your breath  
Let those snake eyes roll

We bounce between the devil and the deep blue sea  
Bounce between forever and what may never be  
Let the light of love keep bouncing off  
The diamond in the darker side of me

I never had no education  
Just an in articulation of the heart  
But burning deep inside me  
There is a diamond in the dark

Catch that flame, let it warm your soul  
Love's cruel game, is the great unknown  
All that fear  
Do you know you're not alone

We bounce between the devil and the deep blue sea  
Bounce between forever and what may never be  
We bounce between decisions, destinations constantly  
Let the light of love keep bouncing off  
The diamond in the darker side of me

I never had no education  
Just an in articulation of the heart  
But burning deep inside me  
There is a diamond in the dark

A shine, a flash and then it's over  
A lightning strike, a chance remark  
Am I the only one here  
Like a diamond in the dark  
Like a diamond in the dark
