Walk into the room  
I look and I assume  
That you just like all the other guys  
I look into your eyes  
You got me mesmerized  
Your pulling me into your dreams  
Eyes are so intense  
From the lost suspense as  
If I havent seen your face before  
don't know why I feel  
your just so so surreal  
I can't get you outta my mind

Woah, Woah  
I dont even know your name  
Woah, Woah  
But I still feel the same

How can I fall so hard for someone  
Who only has a face no name?  
Never felt this way 'bout anyone  
I thought you guys were all the same  
How can I fall so hard for someone  
How was I supposed to know  
Got his name I think about the wonder  
Save my broken heart and soul

I've been hurt before  
The future I foresaw  
Thought about the way I felt again  
Will it be the same  
Is it me who's changed  
No chance of compromise, no

Is it hard to see  
The future of you and me?  
Is it just a dream I'm thinking of?  
The future I foresaw  
I've been hurt before  
Then you walk into my life

Woah, Woah  
I just wanna know his name  
Woah, Woah  
Cause I still feel the same

How can I fall so hard for someone  
Who only has a face no name  
Never felt this way 'bout anyone  
I thought you guys were all the same  
How can I fall so hard for someone  
How was I supposed to know  
Got his name I think about the wonder  
Save my broken heart and soul

Woah, Woah  
I dont even know your name  
Woah, Woah  
Cause I still feel the same

How can I fall so hard for someone  
Who only has a face no name  
Never felt this way 'bout anyone  
I thought you guys were all the same (all the same)  
How can I fall so hard for someone  
How was I supposed to know  
Got his name I think about the wonder  
Save my broken heart and soul

How can I fall so hard for someone  
Who only has a face no name (face no name)  
Never felt this way 'bout anyone  
I thought you guys were all the same (all the same)  
How can I fall so hard for someone  
How was I supposed to know  
Got his name I think about the wonder  
Save my broken heart and soul
