(Let's kick it!)

Oh, oh oh oh.
Ma-ma-ma-make yourself comfortable
Make yourself at home
You're not alone when you're sick and tired
Of being lied to
Don't you dare give in
'Cuz your alliance is here to help you!

(Show them)
No regrets and no remorse
(Show them)
Gotta show them that they [something]
Desperate times call for desperate measures
So guys and girls, let's go get it!

We'll never stop evolution
So tonight let's start a revolution
Get yourself into the right state of mind
So sit back, relax cuz right now it's showtime

Revenge is priority; it's not taboo
(Ki-kick it!)
I wanna get my own back
It's not that I haven't moved on
It's just that no-one should feel the way I
Felt from you

(Show them)
No regrets and no remorse
(Show them)
Gotta show them that they [something]
Desperate times call for desperate measures
So guys and girls, let's go get it!

We'll never stop evolution
So tonight let's start a revolution
Get yourself into the right state of mind
So sit back, relax cuz right now it's showtime

(Let's kick it)
Ladies and gentlemen it's time to overflow (overflow!)
That's why we're here at the floor, show
Get yourself into the right state of mind
So sit back, relax cuz right now it's showtime

Oooh oooh
Yeah yeah yeah yeah
Oooh oooh
Yeaahh.. (Aah)

(Let's kick it!)
Ladies and gentlemen it's time to overflow
That's why we're here at the floor, show
Get yourself into the right state of mind (state of
mind!)
So sit back, relax cuz right now it's showtime

(Let's kick it!)
We'll never stop evolution
So tonight let's start a revolution
Get yourself into the right state of mind
So sit back, relax cuz right now it's showtime (oh yeah)

Ladies and gentlemen it's time to overflow (yeah yeah
yeah yeah yeah)
That's why we're here at the floor, show
Get yourself into the right state of mind
So sit back, relax cuz right now it's showtime
