Flyin down the road at 3am nobody in my way
soaking up that the sexy groove put me in the mood I'm
on my way
Riding as fast as I can
Gotta get to that magical land
where everything is right where I want and need it
late night lover

I was alive and so inspired she's on here way
late at night making it right, hoping she would stay
she's driving as fast as she can
she's soon to be in my hands
right where I want her and I need her to be
late night lover

oh my god I see the house just up the street I'm
squirming in my seat
I can see her coming down the drive her headlights
lighting up my life
what's waiting up ahead is gonna rock my world to
pieces
I can't wait for her to feel all of my kisses
Ridin as fast as I can
Gotta get to that magical land
where everything is right where I want and need it
late night lover
