Blushing a cue for her falsities  
Advantage is my only masterpiece

Penny is poison but I don't mind  
Penny is poison but I don't mind

Gardening malice for murderers  
Flushes to me are the weeds to her

Penny is poison but I don't mind  
Penny is poison but I don't mind

We know who we are  
We know who we are  
We know who we are

Starving the love of the marvelous  
I was the penny to previous

Penny is poison but I don't mind  
Penny is poison but I don't mind

We know who we are  
We know who we are  
We know who we are

Gardening malice for murderers  
Flushes to me are the weeds to her

Penny is poison but I don't mind  
Penny is poison but I don't mind

We know who we are  
We know who we are

Penny is poison but I don't mind  
Penny is poison but I don't mind  
Penny is poison but I don't mind  
Penny is poison but I don't mind
