All the royalties are coming down  
All the ones with nothing left to find  
I'm pretty sure that I don't look too real  
I'm pretty sure that I can see it clear

All the royalties are coming down  
All the ones with nothing left to find  
I'm pretty sure that I don't look too real  
I'm pretty sure that I can see it clear

I know how to work things out  
And all I want I got  
I've been through this before

So take my heart  
Take it all  
And take my soul  
Take it all

I know how to work things out  
And all I want I got  
I've been through this before

So take my heart  
Take it all  
And take my soul  
Take it all

Take my heart  
Take it all  
Take my soul  
Take it all
