You...

Know that you will not be the first saviour of the earth
But you'll find,
It's more than you can do, for you

Bandy about a world of change
Yet I knew it was real
When we buckled at the seams
But you'll find,
It's more than you can do, for you
It's more than you can do, for you
More than you can do, more than you can do
More than you can do, more than you can do for you

I've given more, I've given more, I've given more...
I've given more than I could fathom to lose
I've given more than I could fathom to lose to you, to
you
Do all that you can do
Do all that you can do
Do all that you can do
Do all that you can do, for you

Still I forget nothing else
Still I forget nothing else
Still I forget nothing else
Still I forget nothing else.
