This time it's done  
You made your mistake  
And now you've got to trust  
not only take what i've given you,  
you dont appreciate

You only thought  
about yourself  
you never cared (one bit about us)  
what happened to all the time we shared

This time it's on you,  
you've got to choose,  
between a lie, so you, dont lose  
Dont criticize me  
you didn't even hear, (what i tried to say)  
now i'm just stuck here(all by myself)  
wondering, what steps next

This time it's on you,  
you've got to choose  
between a lie, so you, dont lose

this time it's all you  
you've got to choose  
between a lie, so you dont loooseee....
