I have got to ask you do you run from me  
Because your scared or you just dont like me?

I showed you everything I know  
Now Im here wondering where did you go  
All the times I hung out with you  
Everything felt so new

Now that you are gone I thought a lot about us  
And all the words you said to comfort me  
As I walked away and didnt look back

I felt the pain now its over

Now that you are all alone  
I hope your by the phone  
And I hope that you know  
What you reap is what youve sown

Now that you are gone I thought a lot about us  
And all the words you said to comfort me  
As I walked away and didnt look back  
I felt the pain now its over
