Your heart is mine  
My mouth is closed  
The time is right  
For you to know  
Where to run and hide

I just commit  
A little crime  
And then I'll take back  
What I lost

As I'm running down the stairs  
Past your good intentions  
And I'm locked in a room  
Between hell and heaven

I know you left  
Because of her  
I won't let go  
I see can't see past  
The clouds in her eyes

Why don't you fake  
A little twitch  
And maybe then  
I won't obsess

As I'm running down the stairs  
Past the stain and ribbons  
The ticking of the clock  
Says I'm not forgiven

Don't just leave me here  
Don't just leave me here  
Don't just leave me here  
For dead now

You don't know what's there  
You were never there  
I could be the one who loves you

Don't just leave me here  
Don't just leave me here  
Don't just leave me here  
I'm dead now

You can leave me here  
Please don't leave here  
Will you leave me here forever?

Don't just leave me here  
Don't just leave me here  
Don't just leave me here  
For dead now

You don't know what's there  
You were never there  
I could be the one who loves you

Why did you say you cared?  
Loving you is so unfair  
Why did you say you cared?  
You're dead now

Don't act like she wasn't there  
Thought that I wouldn't care  
Lies said she wasn't there  
She's dead now

Don't leave me here x3  
Don't leave me
