I've been down this road 5 times before,
One more lock I fix to my door,
Make sure I don't get hurt no more.
Love her so much, I try too hard,
Sit back, relax, I'm just falling apart.
I'm falling apart, falling back to the start.
She's breaking my heart, breaking my heart,
Breaking my heart.

Lying to a heart that's sighing,
Watch the final threads start falling apart.
I'm falling apart, falling back to the start.
Crying from a pain I'm hiding,
Climbing, finding out, I'm right back at the start.
I'm falling apart, falling back to the start.
She's breaking my heart, breaking my heart,
Breaking my heart.

Lying to a heart that's sighing,
Watch the final threads start falling apart.
I'm falling apart, falling back to the start.
Crying from a pain I'm hiding,
Climbing, finding out, I'm right back at the start.
I'm falling apart, falling apart.
She's breaking my heart, breaking my heart,
Breaking my heart.

Let me tell you how, let me tell you how
I love you so much, I love you girl
Love you girl! Love you girl!
