There's traffic on the northern line  
We say goodbye the final time  
Pretend that we meant something more than this  
When the memories you left behind  
Remind me you were never mine  
The lonely train you left without a kiss

The golden girl, the silver spoon  
The eyes like pearls that wept too soon

Haunt me up until the day I die  
I climb aboard the sinking ship  
Biting on my bottom lip  
And wait for time to heal my pride  
But time was never on my side  
Me and you were just a ride  
You and were just a ride

Seven weeks have come to pass  
I stumble on the photograph  
To see the lucky man to take my place  
Cloak and dagger from the start  
You twist the knife into my heart  
Watch my eyes bleed tracks upon my face

Me who lost the will to live  
When you who lost the will to give

Taking with the little left inside  
I climb aboard the sinking ship  
Biting on my bottom lip  
And wait for time to heal my pride  
But time was never on my side  
Me and you were just a ride  
Me and you were just a ride  
Me and you were just a ride  
Me and you were just

You lied, you lied, you lied, you liar  
You lied, you lied, you lied, you liar  
You lied, you lied, you lied, you liar

Lied, you lied, you lied, you liar

The golden girl the silver spoon  
The eyes like pearls that wept too soon

Haunt me up until the day I die  
I climb aboard the sinking ship  
Biting on my bottom lip  
And wait for time to heal my pride  
I'll love you 'til the day I die  
Me and you were just a ride
