Remember walking on the first time  
A future, light in skin and bright brown eyes  
It was September, girl you're looking so fine  
Sex, pack, sleep fallin' she's my sign

One, two, three, four

Teen lovers, don't wait  
Vacation is over, don't wait  
Teen lovers, don't wait  
Vacation is over, don't wait

Standin' on front street  
She's giving me the sign  
Incentive: wanna know your DTF  
Better look both ways before you cross that line

Five, six, seven, eight  
Could you have made a move?  
No, it's too late

Teen lovers, don't wait  
Vacation is over, don't wait  
Teen lovers, don't wait  
Vacation is over, don't wait  
(x2)
