Shout It Out
by 21:03

Tribulations, endless waiting
Just be patient
And know that morning's on its way
And when it comes know that
The sun's gonna shine on you
It's true
Aspirations, expectations
Confirmations
You got a blessing on the way
And what He has for you
Nobody can take it away

When it seems like the world's against you
You really going through
Keep your head up
Stand tall through it all
He'll be right there
Right there to see you through

Shout it out
I know, I know for sure
I can do all things
Shout it out
I know, I know for sure
I can do all things
Shout it out

Situations, allegations
Just be patient
And know that He will make a way
And when He does
He'll make enemies ?
It's true
So elation, jubilation
Confirmation
You got a blessing on the way
And when it comes you'll know
He smiled on you

When it seems like the world's against you
You really going through
Keep your head up
Stand tall through it all
He'll be right there
Right there to see you through

Shout it out
I know, I know for sure
I can do all things
Shout it out
I know, I know for sure
I can do all things
Shout it out
I know, I know for sure
I can do all things
Shout it out
I know, I know for sure
I can do all things
Shout it out

No matter what's before you
Know that He's right there for you
He's right there to see you through
He'll make a way for you
No matter what the day brings
He'll be the great thing you need
Give Him praise and more
It's true
His blessings will shine through

I know, I know for sure
I can do all things
Shout it out
I know, I know for sure
I can do all things
Shout it out
I know, I know for sure
I can do all things
Shout it out
