Been up and down been almost crushed to the ground  
But somehow I still come out with my crown  
Sometimes my hills seem unbearable  
But Lord don't move my mountain I'm believin in your  
miracle  
I've never seen the righteous forsaken  
I'd never have made it without you

My joy, my peace, my happiness  
My hope, my strength, my deliverance  
Ain't no stoppin my praise, my diligence  
My life I've dedicated cause I made it with you  
I made it with you (6x)  
Nobody but you (5x)  
I made it with you

I've had some smiles and some cries in my life  
But you see me through them all always by my side  
Sometimes the closest ones to me seem like enemies  
But Lord you make them my foot stool to prepare me  
I've never seen the righteous forsaken  
I'd never have made it without you

My joy, my peace, my happiness  
My hope, my strength, my deliverance  
Ain't no stoppin my praise, my diligence  
My life I've dedicated cause I made it with you  
My joy, my peace, my happiness  
My hope, my strength, my deliverance  
Ain't no stoppin my praise, my diligence  
My life I've dedicated cause I made it with you

I need everybody to say this  
Oh oh oh ohhh. oh oh oh ohhh  
Come on yall help me out  
Oh oh oh ohhh. oh oh oh ohhh

Say I made it (I made it)  
Have I got a witness? (I made it)  
Say I made it (I made it)  
Anybody made it? (I made it)  
Through the valley (I made it)

Through the mountain (I made it)  
Through the storm (I made it)  
My joy

My joy, my peace, my happiness  
My hope, my strength, my deliverance  
Ain't no stoppin my praise, my diligence  
My life I've dedicated cause I made it with you  
I made it with you (6x)  
Nobody but you (5x)

I made it (I made it)  
Said I made it (I made it)  
Is there anybody out there (I made it)  
That know you made it? (I made it)  
When the enemy (I made it)  
Tried to get you (I made it)  
You tell yo enemy (I made it)  
Get thee behind me (I made it)

And to the deceivers (I made it)  
You thought you had me (I made it)  
Spreadin rumors (I made it)  
All about me (I made it)  
I made it (I made it)  
Cause I'm more (I made it)  
Than a conquerer (I made it)  
So how you like me now?

To my killaz, (I made it)  
You thought you had me (I made it)  
Plottin, schemin all around me (I made it)  
But I'm standin (I made it)  
Cuz there is (I made it)  
No weapon, no weapon (I made it)  
Formed against me, shall prosper (I made it)

It won't win (I made it)  
It won't win (I made it)  
Anybody made it (I made it)  
So thank you Lord (I made it)  
Cause you made it (I made it)  
Hallelu (I made it)  
You made it (I made it)  
Hallelu (I made it)
