Oh, what a shame I feel today
Yeah, all alone I can't take it again
Cold in this grave I won't rot in your game
Think about this, maybe I won't return

Filthy Liar, Backstabber!

Hey, get a grip I'm just talking to you
There's something I would like to do
Fucking pretender stop saying you're laying low
Where's my best friend I used to know?

Cheap tricker, Backstabber!

Oh, Get me out of this nonsense trance
I'm trapped in here I can't even stand
It's quite hard to lose your best friend
I'm tired of weak efforts that nothing could change

Hey, I'm busy come back other time
If you're lucky I'll give you a sign
Hope you've learnt from this mistake
You should never betray your friends

Cheap tricker, motherfucker !

Oh, Get me out of this nonsense trance
I'm trapped in here I can't even stand
It's quite hard to lose your best friend
I'm tired of weak efforts that nothing could change
