"Stray Dog"

Fucked up day, my girl shared other bed
Mom and dad are dead, and nothing else could go
wrong

I'm moving along, a stray dog's on the road
Now I look like prey I'm gonna meet my death

Bark my name !
Damn stray dog !
Bark my way !
And bite me forever long !

Got no money, my stomach hurts
A lot of people stares but no one understands
I hate this life, got a rope on my neck
I'm about to break, but I can't even kill myself

Bark my name !
Damn stray dog !
Bark my way !
And bite me forever long !

I don't care !
I won't run !
Bite me again !
Bleeding life !
Smell my fear !
Smell my fear !
Smell my fear !
Smell my fear !
