Here come all the Angels
Haunting with their riddles
Here come all the Angels
Heading to forgive us

Jump on inside to witness water running
The air turns ground
Shaman are on their way, sing riddles
While they speak in tongue
Circulating, both are waiting for their vows
Further as we climb our walls
Clearing all the wounds that have been

Here come all the Angels
Haunting with their riddles
Here come all the Angels
Heading to forgive us

Come down, listen for the sound of youth
To call out loud
Trade back all your fears, don't suffer years
Of guilt and doubt
Candid ways of Newborn days
The Sun goes round
Further as we climb our walls
Clearing all the wounds that have been

Here come all the Angels
Haunting with their riddles
Here come all the Angels
Heading to forgive us

Shake, waking up with much more to go...
Circulating, both are waiting for their vows
Further as we climb our walls
Clearing all the wounds that have been

Here come all the Angels
Haunting with their riddles
Here come all the Angels
Heading to forgive us
