-Instrumental-

I know you don't want to see me
Here in this place
Just remember back in the day
You and me

Lookin' at your photograph
Lookin' at your face
Can't remember the last time that
It was just you and me

You and me together again
you and me together again
as friends

-Instrumental-

You and me together again
You and me together again
as friends

Look at me and smile back
Because I know it hurts like that
Don't question what there is to say
You and me

Together again you and me
Together again as friends
