I have been here before, so down on it, so lost in it
trying to name my enemies
before they swallow me
before they swallow me

breaking is what i want, breakin
breaking is what i want, breakin
something from nothing

i can't feel this hate much longer

friendships dragged and ripped for this
what can i expect a peice of them
for all of me
for all of me

breaking is what i want, breakin
breaking is what i want, breakin
something from nothing

I'm so down, I'm so down, I'm so down
