"Close To Me"

Visit "[Close To Me](#)" on MotoLyrics.com

I wish I could find the words to
Tell you how much I want you
Cause baby you act like you don't know
Ever since I met you
I find it hard to get you

Close to me
I get the feeling you're supposed to be
Forever always with me

If I could get to know you
just get the chance to show you
I could be all you'd ever need
All of my life I'd give you
All of my time here with you

Close to me
Tell me you want me and get close to me
I'd could be everything

If you release all of your heart
give all your loving to me
I in return will give you mine
and if you do, forever I
will hold you close to me girl
cause it's supposed to be girl
Always you and I
