Every now and then, it happens  
At the strangest time, you'd think by now  
I'd recognize the signs

Just a show of bad emotion  
takes me by surprise  
I lose control I don't know why  
But I

I Apologize for I  
I made you cry  
is there somethin I can do  
to make it up to you  
For I know that I was wrong  
I need you love to go on  
please forgive me one more time  
I apologize

I never meant to hurt you  
I never meant to be cruel  
And even though I need you so  
Sometimes I act like a fool
