"Only You"

Visit "[Only You](#)" on MotoLyrics.com

All I need, here on this lonely night
To hold you close and keep you by my side

Without your love I can no longer live, I just survive
And I just survive for only you

Forever close to me
All the time, like it's supposed to be
Your heart belong to me alone it's true
and my heart belongs, with all of my love, to only you

For only you could make my dreams come true
and fill my world with so much love
you do for me what no one else could ever do
I dedicate my love to you for only you
