It was a black day in LA and that's where I got to know her
That's when she said she's from a small town she comes from South Dakota
But I know it's a lie and I still don't know why she's better than I thought
She said she loves my hazel eyes and its good to feed the ego
And she said she loves my band and she wants to walk the rio
But I know I'm a fool she's got something to hide she still comes inside

I should have never let her tie me down and cuff me to the bed
She took my keys my car and then said thank you come again
She's the perfect villain a thief that you want to charm
She'll take everything that you got before you know it she's gone

So take my money
So take my money take everything that you think is mine
So take my money
So take my money
Take my money

She had a stiletto out the door and the other in denial
Wanted to leave but she was feeling so lucky like the lotto
Did the smile on my face give my secret away will she ignore me
She said she's the best at what she's doing and there's some more to take
If your good at just assuming then open up the safe
So she batted and eye with only two numbers shy I have no more at stake

That's when opened up the bag and stole the money in the safe

She looked at me and smiled and said thank you for
the pay
Glad to be at service blew I kiss and then rolled away
She took everything that I had then drove away the
Cadillac

So take my money
So take my money take everything that you think is
mine
So take my money
So take my money
Take my money

That's when opened up the bag and stole the money in
the safe
She looked at me and smiled and said thank you for
the pay
Glad to be at service blew I kiss and then rolled away
She took everything that I had then drove away the
Cadillac
