They talk about jeff has died
A few years ago
But I don't believe them
Cos I saw him yesterday
In that empty house
Beside the school
Where we used to play
Play our strange games
Where he was me and I was him
They don't believe me
Ma you think I lie
That Im crazy
But I think you are wrong
And Im right
Ma Im disappointed
You should know

I never tell you no lie
When I tell this all to old joe
Hell be by my side
I can count on him
He has never let me down
And after you have talk to him
You must say, that I was right
He said to me: maybe, maybe you are crazy
He said: he aint sure, but he is really worried
I think he is wrong
And Im right
I think you are wrong
And Im right
