I am feeling shaky and low  
No need no nursing no more  
Just give me something to blow  
I wanna know which way to go  
You gave me lovely time  
Everything was cooking and fine  
Hey stranger if you don't mind  
Let me know am I dead or alive  
Mister snowblind looking at me

And say hey rely on me  
I said what I cannot see  
He said ok now you're with me  
True love got me out of my tune  
I sounded too good to be true  
Meet the painkiller in my room  
The mood is good, good is the mood  
You gave me lovely time ...
