"Future and presently I have been waiting to find her
She was a woman who thought she could put me
behind her
Though I have seen it before I'm still easy
I want her to come to my door and just please me

Waiting, I'm waiting for my love to come
Yeah, I'm waiting
I'm waiting for the only one

And what can I say when she's never around me to
listen?
She's always pretending that she doesn't know what's
been missin'
How long am I gonna wait?
She'll come one day
Ask me and I'll likely say
that there's some way

Waiting, I'm waiting for my love to come
Yeah, I'm waiting
I'm waiting for the only one

It's ok when I say I want her to understand
It's only because I can

Waiting, I'm waiting for my love to come
Yeah, I'm waiting
I'm waiting for the only one

Waiting, I'm waiting for my love to come
Yeah, I'm waiting
I'm waiting for the only one

Waiting, I'm waiting for my love
Waiting, I'm waiting, I'm waiting for
Waiting, I'm waiting for the only one"
