All The Things Between Us

Don't tempt me with with your apple  
I've had that fruit before  
It has been a while though  
I don't want it anymore

All the things between us remain

What happened to all those meetings  
behide all of those closed doors  
look hard at what we created  
soon, It will exist no more

All the things between us remain

All the things between us  
lean on each other  
are left under covers  
won't be discussed by our Mother's

Touch yourself for feeling  
I'm not behind you anymore  
and think about why you left here,  
I know, I'm not sure.  
Walker Hornung
